

# Abstract Review Rubric

Max Score: **30 pts**

EVALUATION CRITERIA (Scale: 1 = Strongly Disagree to 5 = Strongly Agree)

| # | Criterion              | Description                                             | Points     |
|---|------------------------|---------------------------------------------------------|------------|
| 1 | <b>Relevance</b>       | Title is relevant to the conference theme and sub-theme | <b>1-5</b> |
| 2 | <b>Objectives</b>      | Abstract clearly states the research objectives         | <b>1-5</b> |
| 3 | <b>Methodology</b>     | Research methodology is appropriate and described       | <b>1-5</b> |
| 4 | <b>Results</b>         | Results of analysis are correctly interpreted           | <b>1-5</b> |
| 5 | <b>Conclusions</b>     | Conclusions and recommendations are sound               | <b>1-5</b> |
| 6 | <b>Writing Quality</b> | Abstract is free from grammatical and spelling errors   | <b>1-5</b> |

## SCORING KEY & RECOMMENDATIONS

| Score | Rating        | Interpretation                               | Recommendation                           |
|-------|---------------|----------------------------------------------|------------------------------------------|
| 25-30 | Excellent     | Original concept; important or new results   | Accept for Oral Presentation             |
| 20-24 | Good          | Strong and relevant to the conference        | Accept for Oral (minor revisions)        |
| 15-19 | Average       | Useful learning for colleagues in same field | Accept for Poster Presentation           |
| 10-14 | Below Average | Redundant; no substantial new knowledge      | Invite resubmission after major revision |
| < 10  | Very Poor     | Insufficient quality; missing sections       | Reject (state reason)                    |

# Abstract Review Workflow

## PHASE 1 — Initial Reviewer Assessment

1

### Abstracts Assigned by Sub-Topic

Each reviewer receives abstracts aligned to their thematic expertise area.

2

### Independent Scoring

Reviewers score each abstract against 6 criteria (1-5 pts each). Max: 30 pts.

3

### Initial Recommendation Made

Based on total score: Oral / Poster / Revise / Reject. Comments provided.

## PHASE 2 — Scientific Committee Review

4

### Detailed Quality Review

Scientific Committee reviews abstracts in full, considering reviewer scores and comments.

5

### Equity Points Assigned

Additional points for geographic equity, gender balance, and institutional diversity.

6

### Final Selection & Assignment

Abstracts selected for Oral or Poster. Assigned to session tracks and schedule.

**Equity Points:** Awarded by the Scientific Committee to promote geographic diversity, institutional representation, and gender balance in the final program.
